What is it? The peak season incentive program is a nationwide program for all SIMOS and Staff Management | SMX sites, where associates can earn raffle ticket entries for completing criteria outlined in this FAQ.

When is it? The program will run for 12 weeks, beginning September 25th ending December 18th.

Who can enter? Any currently employed associate for Staff Management | SMX or SIMOS (must be an active associate at time of winning).

How does it work?

- Every week, associates can earn raffle entries into a weekly drawing for a bonus prize of \$500. Associates can have multiple entries in the weekly raffle.
- At the end of every week, a winner will be drawn at random. Each week the raffle resets, so each week is a new chance to win and gain entries!
- During the last week, all 12 prior winners from previous weeks will be entered into a Grand Prize drawing for a \$1,000 bonus.

What will earn raffle entries?

1. Perfect attendance for the week starting Monday-Sunday
2. Stafftrack™ mobile app usage – associate will get 1 raffle entry every week if they login/open the app

All entries will be automatically submitted on your behalf once you complete one of the above tasks, so no further action needs to be taken.

How will winners be announced? Each winner will be announced on the program landing page, meetstafftrack.com/incentive. The team lead at the site where there is a winner will also announce the winner's name at their location. Additionally, with the winner's permission, a photo of the winner and the onsite management team will be taken and shared on social media channels.

What can I win?

Week 1 through 11, if you are drawn as a raffle winner, you will be rewarded a \$500 bonus. On week 12, the grand prize winner will be rewarded a \$1,000 bonus! All bonuses will be processed on the following pay cycle in a separate check and are subject to all required taxes and garnishes.
